ASPIRATION

I aspire to become a highly skilled full-stack developer, mastering both front-end and back-end technologies. My vision is to create scalable, high-performance applications that enhance user experience and drive innovation. I am committed to continuous learning, embracing emerging technologies, and collaborating with industry experts to develop impactful digital solutions that shape the future of technology.

SUMMARY

Passionate and dedicated full-stack developer specializing in MEAN and MERN stack development. with expertise in crafting intuitive, responsive, and performance-driven web applications using modern front-end and back-end technologies. Strong problem-solving skills and a keen interest in learning new technologies to stay ahead in the industry

PROFESSIONAL QUALIFICATION

Full-Stack Development Certification – Web Code Nexus (2024)

- Completed an intensive eight-month full-stack development program a specialization in MEAN and MERN stacks.

MERN Stack Development

- Gained expertise in MongoDB, Express.js, React, and Node.js for building scalable applications.

MEAN Stack Development

- Specialized in MongoDB, Express.js, Angular, and Node.js for full-stack development.

EDUCATION

Bachelor of Computer Applications (BCA) – Calicut University (2019 - 2023)

- Passed with 68%, with no back papers.

Plus Two – Kerala State Board (2017 - 2019)

- Passed with 93%.

SSLC – Kerala State Board (2015 - 2017)

TECHNICAL SKILLS

- **Front-end**: React, Angular, JavaScript ES6, TypeScript, HTML-5, CSS-3, Bootstrap-5, LESS, Sass, Grunt, Redux, Material UI,
- **Back-end**: Node.js, Express.js, RESTful APIs
- **Databases**: MongoDB, SQL
- **Version Control**: Git, GitHub,
- **IDEs & Tools**: VS Code, Postman, Figma, GitHub Copilot, Codium, Cursor Ide

ROLES & RESPONSIBILITIES

- Developing dynamic web applications using MEAN and MERN stack development.
- Designing and implementing RESTful APIs for seamless data exchange.
- Managing databases using MongoDB and SQL to ensure efficient data storage and retrieval.
- Collaborating with teams to analyze requirements and deliver scalable software solutions.
- Ensuring code quality through best practices and version control management.

PROJECTS

REAL- TIME AGREEMENT SOFTWARE

- Developed a real-time software application for creating building agreements using **JavaScript ES6**

ONLINE SHOPPING PLATFORM

- Developed a fully functional e-commerce platform using **Angular, Node.js, Express.js and MongoDB**

DOCTOR BOOKING SYSTEM

- Built an online doctor appointment booking system using **React, Node.js, Express.js and MongoDB**
